Dear Mr. Bech:

Your letter dated February 7, 2019, requesting termination of Outer Continental Shelf (OCS) Pipeline Right-of-Way Grant Bond No. 106936199, in the amount of \$300,000, was received by our office on June 11, 2019. This bond, conditioned to cover principal's pipeline operations in the Gulf of Mexico, was executed on September 11, 2018, with Medco Energi US LLC as principal and Travelers Casualty and Surety Company of America as surety.

We are unable to grant your request at this time. The Risk Management Operations Group and the Bureau of Safety and Environmental Enforcement Pipelines Section have objected to this termination for having active Rights-of-Way. Additionally the Office of Natural Resources Revenue has objected due to current outstanding liabilities. Please see the attached statement of account. When these are corrected you may resubmit your request.

Should you need further assistance, please contact the Risk Management Operations Group at boemrmog@boem.gov, the Bureau of Safety and Environmental Enforcement Pipelines Section at pipelines@bsee.gov or the Office of Natural Resources Revenue at Mary.Mitchell@onrr.gov.

Sincerely,
